

## 2019 Producer Meeting

Friday, April 5th  
Niverville, Manitoba  
Niverville Heritage Centre  
100 Heritage Trail

Tuesday, April 9<sup>th</sup>  
Strathmore, Alberta  
Travelodge Hotel  
1150 - 350 Ridge Road

Wednesday, April 10th  
Saskatoon, Saskatchewan  
Comfort Suites  
203 Bill Hunter Avenue

**Time: 10:00 a.m. – 2:30 p.m.**

***9:30 REGISTRATION***  
***Lunch will be provided***

### **PROGRAM**

**IR cameras and RFID tags: Applications of new technologies in the pig barn**, *Bernardo Predicala, Prairie Swine Centre*

- Infrared technology offers the opportunity to detect when pigs are stressed by routine practices. How this new technologies technology can assist producers in their daily management will be discussed.

**Working to Maximize Genetic Potential: One Producer's Experience**, *Pat Monaghan, Eclipse Pork*

- We have seen significant advancement recently in the productivity of modern genetics, both on maternal output and grow/finish efficiency. Learn how one produces is optimizing genetic potential on their farm.

**Using the technology adoption Decision-making Tools for Swine Operations**, *Abisola Omoniyi, Canadian Center for Health and Safety in Agriculture (CCHSA)*

- Decision making tools are an important part of any business. How producers can effectively assess returns when implementing new technologies will be discussed.

**An Update on PEDv in Alberta**, *Javier Bahamon, Alberta Pork*

- What do we know today and how is it going to impact my operation?

**Trouble Shooting Problems on Your Farm**, *Dennis Stevenson & Donna Van Gorp, Zoetis*

- The importance of a logical and systematic approach to solving problems on your farm is essential to optimize you farm's performance. Through efficient problem solving we can optimize the bottom line of our operations.

**Testing of a prototype air-filtered pig transport trailer: does it work?**, *Bernardo Predicala, Prairie Swine Centre*

- Development is under way for an innovative pig transport trailer. By maintaining an environmentally controlled environment for pigs during transport we have an opportunity to reduce contamination while maintaining pig comfort.
