

2022 Producer Meetings

In our continued commitment to bring you timely information, we are pleased to again partner with PIC and Zoetis to bring you a series of meetings that will benefit your operation. We will be hosting two webinars focusing on those things we can do to improve the cost of production in our operations. Each meeting will focus on two topics and take place on Wednesdays throughout March and April.

We look forward to the time when the industry can get back together to share ideas, information and comradery in person. You will be required to register for each webinar individually, and please register early.

We look forward to seeing you there.

PROGRAM

All meetings will take place between 11:30 – 12:30 p.m. (Saskatchewan)

March 30	<p>Your Gilt’s Influence on Cost of Production</p> <p>Reproduction success often starts with management of replacement gilts. From birth to selection to breeding, the way in which we manage replacement gilts plays a crucial role in a lifetime productivity.</p>	<p>Kendall Weger PIC Technical Service</p>
	<p>Improving Your Facilities Operational Efficiency</p> <p>Rising utility costs continue to erode the bottom line. Incorporating strategies that will help you manage costs without sacrificing performance, health and safety are important moving forward.</p>	<p>Bernardo Predicala Ph.D. Prairie Swine Centre</p>
<p>Register in advance for this meeting: https://us02web.zoom.us/meeting/register/tZwrcu6pqjsiGt2DeifbPDFsSp3mgIISac_r After registering, you will receive a confirmation email containing information about joining the meeting.</p>		
April 13	<p>Optimizing health management costs with a focused approach to disease prevention and control</p> <p>Health management plays a key role in optimizing your herd’s performance. Implementing strategies that follow a balanced approach between prevention and control are critical to your farm’s success.</p>	<p>Blaine Tully DVM Swine Health Professionals</p>
	<p>Good Welfare Makes Cents</p> <p>Achieving optimal production efficiency requires a multi-faceted approach. Ensuring you achieve optimal welfare is not only good for the pigs, but the bottom line of your operation.</p>	<p>Jennifer Brown Ph.D. Prairie Swine Centre</p>
<p>Register in advance for this meeting: https://us02web.zoom.us/meeting/register/tZEpf-CgqDIsG9WcTd3mHJ_fNDBVL8fkazsh After registering, you will receive a confirmation email containing information about joining the meeting.</p>		

Prairie Swine Centre would like to thank PIC Canada and Zoetis for their sponsorship and promotion of these meetings

“Proud to support innovation and enable information sharing to producers”
